

Sustaining Membership

The purpose of a **Sustaining Membership** is to promote enhanced communication, cooperation and coordination between engineering and land surveying firm members of ACEC AZ and firms or organizations who team with, or provide services and/or products to, consulting engineers or land surveyors. Sustaining Membership grants membership into the American Council of Engineering Companies of Arizona only (not the American Council of Engineering Companies nationally). Sustaining Membership is limited to companies that are not eligible for regular membership.

The Competitive Edge

ACEC of Arizona Sustaining Membership allows TWO individuals from your firm the opportunity to participate in all association activities. Network with clients throughout Arizona. Join a liaison or business committee:

Liaison Committees - Liaisons are limited to ONE attendee per firm: ADOT – City of Phoenix – Maricopa County – East Valley (Mesa, Chandler, Tempe, Gilbert, Apache Junction) – Pinal County – Southern Arizona – West Valley (Glendale, Litchfield Park, Surprise, Peoria, Goodyear, Tolleson) – Flagstaff and Northern Arizona – Yuma and Vicinity – University Liaisons.

Business Committees - Business Practices (Salary Survey, Government Affairs, Political Action, etc.) – Human Resources – Private Development – Water – Public Relations (ACEC of Arizona Awards Program, Membership, School Outreach, Media Coverage, etc.) – Annual Golf Tournament – Roads & Streets Conference – Social Media

Industry Benefits

ACEC of Arizona has been helping members make money by designing opportunities for building a solid business network for over forty years. **ACEC of Arizona** has gained a reputation for quick, cost-effective solutions to member needs. **ACEC of Arizona** programs are based on a partnering and team building process that has proven effective in working with public and private entities throughout Arizona.

The American Council of Engineering Companies of Arizona is the only association in Arizona representing the business of consulting engineering. There are over two hundred Arizona consulting engineering firms (9,000+ employees) actively involved.

Highly Responsive

ACEC of Arizona puts 100% of their effort into responding to member needs. ACEC of Arizona exists to deliver quality service, to improve the bottom line for member firms, and to open the doors of communication between engineer, client, team members and suppliers.

This is your business and ACEC of Arizona is your association – Join today!
