

Without Engineers – You Can't

*walk the dog, drive to work,
shower after exercising, watch TV,
microwave your favorite meal,
cook or bake, mow the grass,
call your friends or have a cell phone,
be cool in the summer, wash your clothes,
eat out, play computer games,
take medicine for your cold,
build a new house, listen to the radio,
ride your bike, vacuum the rug,
recycle your garbage, play baseball at night,
be warm in the winter,
fly to your favorite vacation spot,
check the time, flush the toilet,
buy a fresh tomato in the winter,
fill that cavity, use the ATM machine*
